GHIBAUDI MARIO S.p.A. founded in 1927 by Mario Ghibaudi, the father of the current executive president, Guido Ghibaudi. The factory located in Turin increased production capacity during the year 2000 from 4.000 square metres to more than 6.000 square metres employing a workforce of 50 people. During 1970 a wholly owned subsidiary now known as Ghibaudi France was established, followed in 1980 by Ghibaudi Spain as distribution centres for all Ghibaudi products.

The current Ghibaudi range of products comprises of, starter drives and components, pinions, reducers for starter motors and bushes.

In an effort to offer a more comprehensive range of products to our customers, a new range of solenoid caps was introduced during 2005.

We currently produce more than 60% of our total turnover for sale throughout Europe. The other 20% is sold to North Africa, South and North America as well as Asia. Turnover for the Italian market amounts to 20%. Our distribution network in Italy is structured by depots and agents located in 12 Italian regions. For Europe and the rest of the world wholly owned distribution centers in France and Spain are utilised.

For the United Kingdom, Denmark, Portugal, Greece, and North Africa, agents are appointed and constantly monitored for performance.

With this comprehensive network we are able to offer an extremely high service level expected from our customers. We are currently supplying several original equipment manufacturers.

We also supply many of the larger remanufactures in Europe. All these companies are synonymous with quality.

Ghibaudi attend both Automechanika in Frankfurt and Equip Auto Paris.
